

**Print out this eye chart to determine your
lens power for your CliC readers**

Eye Chart

To determine your lens power, read the text below without glasses from 14 inches away. Match the first line that appears blurry to the power shown on the left.

+ 2.50 All our reading eyewear

+ 2.00 products use the highest

+ 1.75 quality frame and lens material

+ 1.50 and are designed for maximum

+ 1.25 comfort and fit.

Non-prescription reading glasses are not intended to replace regular examinations by an eyecare specialist.
